

ANPEX VAM-510 Series

Veterinary Anesthesia Machine

VAM-510*
Tabletop Type

VAM-510W
Wall Mount Type

Benefits

Versatile Breathing Circuit

Opening or closing the rebreathing circuit by one turn of the knob, convenient to switch between rebreathing and non-rebreathing system.

Safe Oxygen Flush

Oxygen flush valve with restricted flow for extra safety of the patients. Integrated with the breathing circuit for easy access and handle.

Interchangeable Mounting Methods

Tabletop design with easy carry handle, upgradable to stand-mount or wall-mount seamlessly by specific mounting kit.

Customizable Configuration

Flowmeter with different reading ranges, vaporizers of Cagemount and Selectatec type with screw-fill and key-fill option are available.

User Friendly Design

Delivery with a complete assembly, no tools needed for regular maintenance.

Qualified Parts Installed

All parts and materials used in ANPEX anesthesia machines are medical or food grade product from qualified global suppliers.

Specifications (VAM-510)
